MEMORANDUM

TO: The Members of the EPA/OSHA Task Force

FROM: Kay Thomas Packett *KTP*

Enclosed for your information is a report on ETS presentations by Dr. Morton Lippmann and OSHA's Charles Adkins at a conference entitled "Controlling Inhalation Hazards in the Workplace," held April 29 in New York City.

Adkins' comments regarding the EPA risk assessment of ETS, OSHA's views of the workplace ETS studies and OSHA's thoughts on a smoking ban versus a ventilation approach are particularly interesting.

Please let me know if you have questions.
